Welcome to the Badlands Angus Alliance Bull & Bred Female Sale. This is not only a partnership between Best Angus, Strommen Ranch, and Talkington Angus Ranch, it is also a partnership with all of our current and future customers. With our combined resources and marketing assistance from our partners at Stockmen's Livestock Exchange in Dickinson, N.D., **we are committed to helping our customers add value to their females** and continuing the Badlands Angus Alliance sale as **THE PREMIERE SOURCE** for bred females in western North Dakota.

In our third year, this sale features more than 450 elite, source and genetic-verified bred females from our respective programs and from our commercial customers. **We are proud of the exceptional herds our customers are building and we are excited to help them market their top females through this sale.** They are all influenced by and bred to Best, Strommen or Talkington seedstock.

These bred females are the type and kind you can use to build a profitable, sustainable herd for generations. They are bred to be easy-fleshing cattle that are productive on minimal inputs, with enough emotional intelligence to be handled with minimal labor, and enough survival instinct to get out and forage, nurture their calves and bring in pounds at weaning.

Many of them are AI-bred to proven, calving-ease sires with a tight calving window, and have been ultrasounded for calving dates. They are all source and genetic-verified and bred to known calving-ease genetics. A full ranch and production history on each consignment is included in the heifer listings.

The coming-2-year-old ANGUS bulls are thick, stout, rugged, fully guaranteed and will be ready for service in big country. **They were retained specifically for this sale.** We are excited to offer these bulls as it gives us a chance to see our genetics as they age and develop. These bulls have been slowly developed with soundness and longevity in mind with an optimum gain not an excessive gain. **Our ultimate goal is to have the bulls range-ready, sound-footed and ready to go to work for you!**

Bull & Bred Female Sale DEC. 2, 2020

12 P.M. MST ~ STOCKMEN'S WEST, DICKINSON, N.D.

SALE DAY PHONES

Shane Talkington Cell..... (701) 290-7222
Aaron Strommen Cell..... (701) 290-7983
Pete Best Cell..... (701) 570-6959

SALE ORDER • Bulls will sell first then females will follow.

VIDEOS • Videos of the bulls and bred females will be available on www.DVAuction.com

TERMS AND CONDITIONS • Bulls sell under the standard terms and conditions of the American Angus Association. Terms of the sale are cash. Full payment is due on sale day.

BASE PRICE • All bulls will have a minimum price of \$3,000 sale day. Bidding will begin at the base price.

BULL DEVELOPMENT • These bulls have been handled correctly and developed without ANY creep. They have been fed just enough to express genetic differences, but not overfed as to compromise soundness or longevity. We want you to have a bull that will do his job and last for years.

EPDS • EPDs are current as of Oct. 19, 2020.

SALE TIME • The sale starts at 12 p.m. MST.

BULL DELIVERY • We will offer free delivery on the bulls within 500 miles of Dickinson, N.D. Deliveries will begin immediately following the sale.

FEMALE DELIVERY • We will not deliver the females, but can assist in lining up trucking. Please contact us or Stockmen's West to make arrangements.

HEALTH • All bulls have been on a complete health program as prescribed by our respective veterinarians.

FERTILITY • All bulls have passed a fertility exam performed by Dr. Gary Scheiber for the Best Angus bulls, Dr. Pat Bierman for the Strommen bulls and Dr. Chance Noyce for the Talkington bulls.

SIGHT UNSEEN PURCHASES • If you, for some reason, are unable to attend the sale, but wish to place a bid, feel free to call us and we will handle your bid as if you were here. If you wish to be on the phone during the sale, we will try to accommodate your request. Please let us know in advance so arrangements can be made. All sight unseen bull purchases are fully guaranteed.

Cattlemen & Friends - We are proud to partner with our friends the Bests and Talkingtons and our respective customers to offer this unique sale. It is our goal to continue this sale as the premiere source for maternal Angus genetics in western North Dakota.

Our herd consists of fertile, functional, easy-fleshing cattle that raise big calves without creep feed. We believe that true profitability in the beef business is driven by cattle that have the Maternal POWER™ to do more with less. As your seedstock provider, we want your operation to be profitable and sustainable for generations – regardless of the market. That is why we require our stock to thrive in a Northern Plains, grass-based environment with minimal supplementation. They must do more with less.

Strommen Ranch cows must calve annually and wean a calf that is a high percentage of its dam's bodyweight. They must also possess the basic phenotypic traits to cover country, breed on time, have the smarts and mothering ability to do it on their own, all while performing under the conditions that Mother Nature has dealt us. We select for fertility, longevity, sound structure and realistic performance in the cow herd. Cattle that breed early in the cycle, are structurally sound and can raise big calves efficiently in a practical environment with minimal inputs are the kind of cattle we produce and believe will have a positive impact on your bottomline now and into the future.

The bulls we're bringing to Dickinson embody this philosophy. Retained expressly for this sale — many being ET calves from our powerful donors — they are rugged, stout, sound, packed with generations of Maternal POWER™ and are ready for service in big country. We look forward to seeing you Dec. 2, 2020, and invite you to our ranch, west of Fort Rice, N.D. Feb. 20, 2020, at 3 p.m. CST, for our Maternal POWER™ Angus Bull Sale, where we'll sell 80 yearling Angus bulls.

- Aaron & Sheyna Strommen, Cassidy, Cooper & Clint

Here is an excellent Raindance son that has been a standout all through his life. He is massive in his design, has a huge sweeping rib cage, is wide based, masculine and stout. His dam raised him as a first calf heifer to a 758 lb. adj. 205 wt. to ratio 110. 9139 also went on with one of the top gains at yearling time to have a yearling weight ratio of 115. His dam has a perfect fertility record having bred back to AI service every year. She raised a beautiful heifer calf that made the replacement pen and scores an 8 on udder and 8 on disposition. If your intention is to make beautifully-constructed, fertile, easy-fleshing Maternal Power™ females that can raise tremendous, scale-smashing steers that the buyers will drool over, this guy has to be on your list.

Proven maternal here. The who's who of all-time greats in the Angus breed are packed into this dude's pedigree. Not too often will you see this many breed legends known for producing great females all tied up in one package. His Pathfinder donor dam has a progeny WR of 5/107 and has stuck to her AI service every year up to the time we started flushing her and scores an 8.5 for udder and a 9 on disposition. Blackcap May, Abigale, Everelda Entense and Barbaramere Jet are the foundation Maternal and performance cow families many herds are built around. EPD's are parent average.

We love our bred heifers out of Raindance and are excited to see them develop into long-lasting contributors to our herd. 913 is out of a really nice Right Time daughter that stems from a full sister to OCC Great Plains. His dam put a heifer into the replacement pen this year and has always stuck to her first cycle AI service. She scores a 9 for udder quality and a 7 for disposition. She is climbing the ladder as one of the most eye-appealing females of her age group.

The natural calf from our Pathfinder donor S R Clova Pride 315. He is long-bodied and smooth-made. He has a super attractive profile when viewed from the side and is well balanced. His dam has a calving interval of 372 days, sports an udder score of 7.5 and a disposition score of 8. She has a progeny WR of 5/106 and has achieved Pathfinder status. His maternal granddam had a progeny WR of 8/101 and maintained a 365-day calving interval. This bull will transmit great feet, perfect udders, body length and fertility to his daughters, which are all traits that drive profitability at the ranch level.

Here are 3 flush brothers by the legendary Leachman Right Time. Right Time will go down in the books as one of the most influential female makers in the history of the Angus breed. Their Pathfinder donor dam is a Paxton daughter that has shown excellent fertility, production, foot and udder quality and is excellent in her design. She has a progeny WR of 5/106 with a 368-day calving interval. Their maternal granddam, S R Clova Pride 725, had a progeny WR of 8/101 and maintained a 365-day calving interval. We have retained all of her daughters and they have been tremendous. These bulls have extensive testosterone and libido and are always looking off to the distance for potential business. We feel these bulls will have unlimited potential for replacement female production. Buy them all, keep every female and build yourself a cowherd!

Leachman Right Time • Maternal grandsire of Lots 4 and 5

Recommended for use on heifers or cows. We might have the best XXP son we have produced to date in Lot 18. He stems from a low-birth 16-year-old Quantum daughter that raised 14 calves and kept a 366-day calving interval. She has a progeny BR of 14/98 and a progeny WR of 14/100. He weaned off at 735 lbs. and has three of the greatest maternal cow families of Angus history in his pedigree. Primrose, Dixie Erica and Miss Wix. Massive in his design and extremely long and attractive like his sire XXP, he may be my favorite bull in this offering.

An outcross pedigree for our long-time customers. 9701 is a light birth Black Cedar son that performed well at weaning and beyond to yearling. He is out of a 12-year-old Matrix daughter that goes back to Alliance and has a calving interval of 363 days. His maternal granddam has a progeny WR of 5/104. He is a masculine, stout-made bull that is bred for fertility and longevity.

Cattlemen & Friends - Welcome to the third annual Badlands Angus Alliance Bull and Bred Heifer Sale. It is with great excitement that we continue to grow and evolve this event with our partners, Bests and Strommens, and the well-respected cattlemen who consign high-quality bred females to this sale. We set out with a goal to make this the premier source for bred females in western North Dakota, and we continue to work diligently to achieve that goal.

Talkington Angus Ranch is located on the edge of the Badlands between Belfield and Medora; we are the fourth generation in the 114-year history of our family operation in this location. Our cow herd is run in a rugged terrain on a year-round forage-based diet. The cattle must be easy fleshing, fertile, and structurally sound, with good udders and good temperaments. Our registered herd is managed exactly like our commercial herd and very similarly to many of our customers' herds. We feel this is why our partnership with Bests and Strommens works, as it feels like much of the purebred industry pushes the Angus breed in a terminal direction, all three of our operations remain focused on balanced-trait, maternally oriented cattle.

The 10 virgin, coming two-year-old bulls that we are bringing to this sale have been developed specifically for this sale since weaning. They have been grown with longevity and fertility in mind. These bulls embody the balance we strive to create and are backed by some exceptionally good cows and are sired by our herd bulls. These bulls are all parent verified. Please feel free to contact us with any questions or requests for additional information or data, or stop by anytime to evaluate the bulls and their dams.

www.BestAngusAndQuarterHorses.com

Cattlemen & Friends -

We are so grateful to be a part of this Alliance that is becoming the premier commercial female sale in western North Dakota. Stommens and Talkingtons have been great partners with very similar philosophies to our own. I was extremely proud of the heifers that our female consigners brought to Dickinson last year. More importantly, the feed-back from the buyers has been excellent. I expect nothing less from this year's offering as well. I believe we are making progress toward our goal of helping our customers realize the value they deserve for raising superior Angus females.

We ranch in the North Dakota Badlands southeast of Watford City in some of the most rugged terrain in the region. We are committed to producing cattle that thrive under harsh conditions. Ranching is full of challenges, which is why we believe it is better for us to design cattle that will be profitable working in harmony with nature instead of a constant struggle against mother nature. Cattle designed to be profitable require less labor inputs since they can maintain their body condition and breed back on poor quality stockpiled forage. They are able to do this since they are deep ribbed and wide-made with genetic fertility. They have sound udders, feet and legs allowing them to forage and care for their calves without extra assistance from management. Disposition and intelligence are extremely important traits for reducing labor requirements as well. We can't forget the most important profitability trait of them all, fertility. Just to make things a little harder, we need to make sure these cattle will be profitable to all segments of the beef industry. They need to gain, have excellent feed efficiency and strong carcass traits. Talk about a challenge, but this is what makes breeding cattle so much fun!

These bulls are all virgin two-year olds that were retained specifically for this sale.

We are a family operation and I would like to thank all of the family and friends that help us keep Best Angus running. We could not do what we do without our customers support over the years. We hope to see you all in Dickinson, but if you are unable to attend please contact me and I will gladly help you select an Angus bull that will fit your environment.

This bull is right up there with the best bulls we have ever raised. He ratioed 112 at weaning and 113 at yearling. He is not a very tall bull. His power comes in his thickness and length of body. His Pathfinder mother has 5 calves at 108 for WR and 109 for YR. This future donor's outstanding 2020 bull calf will be adding to her production record. She is one of our top 64L daughters and possesses a flawless udder and nearly perfect feet. She is easy going and stays in good shape while nursing some of our biggest calves. Her fertility has been excellent with a 361-day average calving interval. He is the whole package.

This is one of my favorite bulls. He is a stout, attractive bull with really nice feet and legs. His mother is one of the most attractive, powerful cows on the place but a below average milk producer. If you are looking to moderate milk and improve fleshing ability, this is a really nice, easy going bull. Maternal granddam is one of our top donor cows.

Here is one of our top performing bulls. He is out of an easy-going, high producing Missing Link daughter that processes excellent feet and a nearly perfect udder. His granddam has been in our donor pen in the past. This soon to be 15-year-old Right Time daughter is ultrasounded to have an AI heifer this spring. She still looks like she is in the prime of her life. She will find her way to the donor pen again this year.

This bull has a little extra stretch and frame and one of the highest weaning ratios from the 2019 calf crop. His dam is a beautiful cow that stays in excellent shape.

Commercial Bred Females

These bred females are the type and kind you can use to build a profitable, sustainable herd for generations. They are bred to be easy-fleshing cattle that are productive on minimal inputs, with enough emotional intelligence to be handled with minimal labor, and enough survival instinct to get out and forage, nurture their calves and bring in pounds at weaning. Many of them are carrying AI calves from proven calving-ease sires for a short calving period and have been ultrasounded for calving dates, are source verified and bred to known calving-ease genetics. Sale order will be determined by Stockmen's Livestock, as they are managing this portion of the sale.

If you have cattle out of and bred to Talkington, Strommen or Best bulls and you'd like to consign bred heifers in 2021, please contact us!

Sorenson Ranch, Watford City, ND

50 HEAD BRED HEIFERS, DUE APRIL 1 FOR 40 DAYS

Contact: **Jarvis & Kadie Sorenson 701-570-6680**

Sorenson's ranch was established in 1906. Jarvis and his family focus on raising cattle that do well on Badland's pasture and thrive on tame grass. Jarvis has a keen eye for cattle and a great appreciation for longevity. This nice, deep ribbed, feminine set of heifers are all home raised from the heart of their herd. The only difference between these heifers and the replacements Jarvis is keeping is they did not settle to artificial insemination. Sorensons have been using Talkington and Best Angus bulls for quite some time. These heifers are bred to 2 year old Winchester sons purchased from Best Angus. Jarvis calved heifers to these bulls last spring and he got along fine. He is very happy with the calves out these bulls this fall as well.

Pregnancy ultrasounded by Dr Gary Scheiber, due to calve starting April 1. They should weigh 1000 to 1050 at sale time. They have been given ViraShield and were poured.

Angus Alliance Winchester 975

Alex & Nancy Deis, Linton, ND

50 AI BRED HEIFERS, DUE MARCH 12

Contact: Alex Deis • (701) 321-1491

Repeat consigners Alex and Nancy have brought us a nice set of heifers that originated from the Shannon and Jennifer Goetz Ranch, south of Richardton, N.D. They are out of Strommen Ranch sons of Resource and Torque. Shannon and Jennifer have a great eye for the top bulls and Alex and Nancy do an excellent job developing heifers. This is the top cut of heifers from the Goetz family with absolutely none held back. These heifers have the genetic ability to provide you with unbelievable replacement heifers and a set of scale-pounding steers. This is a set of heifers you can build a herd from.

They are AI'd to ABS calving-ease sire Mohnen Substantial, who is known for his maternal strengths, udder quality, disposition, efficiency, fleshing ability and, most importantly, vigor in his calves at birth. Substantial calves are laser-focused on getting up and nursing. Every one of these heifers carries an AI-sired calf for a March 12 calving date.

These heifers will weigh 1,050-1,100 lbs. and were ultrasounded for sex and calving date by the Steele Vet Clinic and have received PregGuard 10 and Nutriserv Mineral.

Mohnen Substantial

Bruin Torque 5261

Birdhead Ranch, Arnegard, ND

20 BRED HEIFERS, DUE APRIL 1 FOR 30 DAYS

Contact: Dustin & Sara Ceynar or David & Virginia Ceynar • (701) 770-1535

Dustin and his family are repeat consigners and are the 4th generation to ranch in the Missouri River Breaks north of Arnegard. The Ceynars have developed a herd that thrives in the rugged environment in which they are located. They have built a strong following for their feeder calves, as they consistently top the market in Dickinson every October.

The Ceynars have been Talkington customers since 2003. They run one of the most disciplined breeding and genetic programs that we work with. They have currently reduced their breeding season to 49 days and buy large groups of half-brothers. These heifers are home-raised and the herd is heavily influenced by Confidence, Capitalist, Motive, Fortunate Son, Game Day, Versatile and Gridmaker. They are all bred to calving-ease sons of Koupal Juneau 797.

These heifers will weigh 1,050 lbs. by sale day. They were pregnancy ultrasounded by Dr. Chandy Olson and are due to calve April 1-15. They have been poured with Ivomec and were given Vista 5 VL5 prior to breeding.

Koupal Juneau 797

Soo Line Motive

Malkowski Ranch, Fairfield, ND

20 HEIFERS, DUE APRIL 1 FOR 21 DAYS
10 HEIFERS, DUE APRIL 22 FOR 21 DAYS

Contact: **Kasey & Darnyl Malkowski (701) 290-3625**

The Malkowski's are the 3rd generation to ranch north of Fairfield and are repeat consigners at this sale. Kasey and his family are bringing a nice set of home-raised, cake-broke F1 baldies. These heifers are influenced by sons of Missing Link and Soo Line Motive. They are bred to two calving-ease Talkington bulls: SAT Ozzie 7138 and SAT Versatile 803. These heifers are quite docile and easy to handle.

They were pregnancy ultrasounded by Dr. AJ Domek. They have been poured with Ivomec and vaccinated with PregGuard 10.

Ellingson Versatile

Ox Bow Ozzie

David and Tammy Vetter Family, Berthold, ND

35 BRED HEIFERS, DUE APRIL 10TH FOR 21 DAYS

Contact: **Dave Vetter 701-720-1479**

The Vettters are third year consigners that have been building their herd for over 25 years by keeping their own replacement heifers. During the first 10 years, the Vettters used an extensive AI program that the focused on the bloodlines of 6807 and EXT. The only purchased females were in 2013 when they purchased a group of heifers from Best Angus and Ecker Ranch of Watford City, N.D. Vetter's have continued to build their cow herd by combining Emulation and Ohlde bloodlines through purchasing bulls from Strommen Ranch and Best Angus. These fancy F1 baldies are sired by powerful Helbling Hereford bulls. They were bred to a really nice Tribute son out of an outstanding donor of Best Angus. The heifers are very gentle and cake broke.

They were pregnancy ultrasounded by Dr. Kristi Best and are due to calve April 10th for 21 days. They will weigh 1050 lbs by sale day. The heifers received a full health program including Preg Guard 10, foot rot vaccine, 7-way, CattleMaster VL5, Dectomax, Vitamin A-D, and the first round of ScourGuard.

DHD Traveler 6807

N Bar Emulation EXT

Jerry Schmidt, Driscoll, ND

50 AI BRED HEIFERS, DUE FEB. 22

Contact: **Jerry Schmidt • (701) 471-6906**

Repeat consigner Jerry Schmidt of Driscoll is known for his outstanding bred heifer development program. He is bringing 50 easy-fleshing, highly maternal bred heifers that originated from the Ken Schmidt herd of Solen, N.D. They are sired by Strommen Ranch sons of Resource and XXP, as well as Harvester, Roughrider and International bloodlines. The balance of the heifers were purchased from Prairie Diamond Ranch of Hebron, N.D. Their pedigrees go back to Strommen Ranch sons of Resource also Advance, Territory and Bandwagon bloodlines.

These heifers are AI'd to Ellingson Homegrown, every one having an AI-sired calf. Tremendous opportunity here to purchase high-quality, reputation replacement females with herd history and breeding to go along with.

They were ultrasounded and sexed by the Steele Veterinary Clinic. These heifers were developed on native pasture. They are on grass hay and supplement the last 30 days and will weigh around 1,100 lbs. by sale day. They've received a full herd health, vaccination and Purina mineral program including Bovishield Gold VL5, poured with Decomax and again with Saber at ultrasound time.

Ellingson Homegrown

LT Bandwagon

Jordan and Heather Braaflat, Plaza, ND

10 AI BRED HEIFERS, DUE APRIL 1

Contact: **Jordan and Heather Braaflat • (701) 497-3053 (701) 898-1264**

Jordan and Heather are repeat consigners who are the 3rd generation to ranch just west of Plaza. These home-raised heifers are confirmed pregnant to SAV Rainfall. Braaflats have an extensive AI program and their herd is heavily influenced by Connealy Capitalist, S Summit 956 and Werner War Party. Jordan and Heather have been long-time customers and friends of Talkingtons and have purchased sons of Connealy Confidence, Brooking Prosecutor, Ox Bow Ozzie, Koupal Juneau 797 and Connealy Maternal Made.

These heifers will weigh 1,100 lbs. by sale day and were PG'd by Schaefer Veterinary Service of Burlington, N.D. They were vaccinated with CattleMaster FP and ScourGuard 4K and poured with Ivomec.

SAV Rainfall 6846

Opal Braaflat and the heifers.

Justin Lund, Ross, ND

10 BRED HEIFERS DUE MARCH 15 FOR 21 DAYS

40 BRED HEIFERS DUE APRIL 5 FOR 21 DAYS

Contact: Justin, Bernadette, Prairie & Dayne Lund • (701) 629-1424

Repeat Consigners Justin and Bernadette are the 4th generation of Lunds to ranch in Western Mountrail County. These top-of-the-herd heifers are sired by Strommen Ranch sons of Resource, Sinclair Emulation XXP and sons of Open Country. They are pasture-bred to calving-ease sons of Capitalist and Payweight from Strommen Ranch. Ten head will calve March 15 for 21 days and 40 head will calve April 5 for 21 days.

Justin has used AI breeding within his herd for many years and the heifers will have a genetic tabulation of some of the breed's best. The genetics represented here should allow these heifers to calve easily and the feeder steers should grow well and their heifers will be keepers. The bred heifers they've consigned were raised on the native range of the White Earth Valley and have been very popular the last two years.

These heifers were pregnancy ultrasounded by Hermanson Vet Service and received a full health program including BoviShield Gold FP 5+VL5 in the spring, CattleMaster 4+VL5, ScourGuard 4KC and Dectomax this fall. They will weigh approximately 1,050 lbs. on sale day.

Connealy Capitalist

SAV Resource 1441

Best Angus & Quarter Horses, Watford City, ND

15 AI HEIFERS DUE MARCH 23

12 BRED HEIFERS, DUE APRIL 1 FOR 30 DAYS

8 BRED HEIFERS, DUE MAY 1 FOR 30 DAYS

Contact: Pete and Vawnita Best 701-570-6959

Best Angus has been focusing on maternal traits since their establishment in 1987. These heifers come from our registered herd. Most of these heifers are out of our herd sires, but some did not DNA type so they could not be registered. These heifers are mainly sired by sons of Fortunate Son and Sitz Rainmaker 11127. The AI heifers are bred to Best Box Cross. Box Cross is a super easy calving bull out of one of our all-time great cows. Box Cross daughters do very well in a low input environment. Feedlot performance and marbling are above average as well. Clean up calves will be sired by ET Tribute sons out of Rosetta 8016 of Best Angus and Gale 7024 of Best Angus. These heifers were ultrasounded by Dr. JJ Hovde. They have been given ViraShield and they will be poured with Ivomec prior to the sale. The heifers should average about 1100# on sale day.

Rosetta 8016 of Best Angus

Gale 7024 of Best Angus

Ross Ranch, Grenora ND

30 AI BRED HEIFERS DUE MARCH 23RD

20 BRED HEIFERS DUE APRIL 1ST TO APRIL 20TH

9 BRED HEIFERS DUE APRIL 15 FOR 21 DAYS

Contact: **Ryan & Rachel Ross 701-509-7490**

The Ross Ranch has been developing heifers for quite a few years in the Grenora area. They typically market about 250 head of locally sourced heifers, selling by private treaty annually. Ryan works as an agronomist for United Agronomy and Rachel works as a nurse. Ryan was impressed by the Badlands Angus Alliance and asked how to be a part of the program. Ryan asked where he could purchase some top heifers from our customers. They were fortunate to purchase some excellent heifers from the Dodge and Muri Ranches in McKenzie County. The Dodge heifers are a product of an operation that has always purchased the top bulls at some of the most respected breeders in the country. Dodges have as nice of a set of cows that I have ever seen. They purchased some excellent Fortunate and Alliance 64L sons from Best Angus that would be the sires many of these heifers. Muri's purchased some excellent Right Time ET brothers from Best Angus and more recently have been purchasing sons of Fortunate Son from Best Angus. The Muri's replacement pen is a very impressive set of heifers every year. The AI heifers were bred to Best Box Cross 291. Best Box Cross sons grow and have been crowd favorites for many years at the Ash Coulee bull sale. Box Cross is a sleep all night heifer bull with excellent calf vigor. The Box Cross females are doing an excellent job. They are moderate framed, easy fleshing with superb udder quality, excellent feet and quiet dispositions.

They have had Virashield and Ivermectin. They were ultrasounded by NW Vet Clinic and bred to a calving ease bull from Best Angus.

Best Box Cross 291

Strommen Ranch, Fort Rice, ND

32 AI BRED HEIFERS, DUE MARCH 20

9 AI BRED HEIFERS, DUE APRIL 10

9 BRED HEIFERS DUE APRIL 15 FOR 21 DAYS

Contact: **Aaron, Sheyna, Cassidy, Cooper & Clint Strommen • (701) 290-7983**

We bought these heifers from long-time Strommen Ranch bull customers Zillich Ranch at Taylor, ND and Leonard Ranch at Rolette, N.D. Zillichs have a reputation of selling market-topping steers and these heifers have a history of proven AI genetics that run more than 16 years deep. Maternal POWER™ genetics, including Alliance, Traveler 004, Bando 9074, Matrix, Larks Canyon, Resource, Thunder, Bandwagon, Capitalist, Chisum 255, Right Answer, Final Answer, Outfitter and Game Day. The Leonard heifers are backed by generations of maternal breeding and most recently sons of XXP, Resource and Revival.

Thirty-two are AI'd to Mohnen Substantial and are due March 20. Nine are AI'd to SAV Rainfall 6846 and are due April 10. Each one is carrying an AI-sired calf. Nine head are due April 15th to Strommen Ranch herd sire OCC Eminent 853E for 21 days.

These heifers were ultrasounded by Mandan Vet Clinic for sex and date, are gentle and cake broke. They have received a full health and mineral program, including Vira Shield 6 VL5 HB, drenched with Safe Guard and poured with Saber at ultrasound time. They are the type and kind to set an operation up for future profit and success!

40 COMING 2-YEAR-OLD ANGUS BULLS

450 BRED FEMALES

Stockmen's West · Dickinson, ND

The Best, Strommen and Talkington herds are each backed by a similar maternally-oriented, balanced-trait breeding philosophy. We each place heavy emphasis on fertile, efficient, easy fleshing cows, which is why our genetics fit well together for discriminating cattlemen who desire cattle backed by generations of MATERNAL POWER – phenotypically appealing females with good feet, great udders and outstanding docility.

We invite you to join us in Dickinson on Dec. 2, 2020, for the Badlands Angus Alliance Bull & Bred Female Sale featuring elite, source-and genetic-verified bred females from our customers and stout, rugged, coming 2-year-old bulls from our respective programs.

Also, due to the success of previous sales - and at the request from additional customers - we are adding a January bred female sale. Contact us for details about both sales!
